There's a New Signal on State Route 74 In Palm Desert!

Palm Desert – The California Department of Transportation (Caltrans) will be energizing a newly installed signal on SR74 (Monterrey Avenue) and Shadow Mountain Drive. The signal is scheduled to “go active” on Monday, January 22, 2007.

This was a locally funded project by the City of Palm Desert. Caltrans would like to thank The City of Palm Desert for its commitment to the community.

Watch for the new signal as you drive on SR74! Be prepared for traffic control at this intersection.

Always SLOW for the CONE ZONE. Avoid delays and frustration by merging early. For information on transportation projects within Riverside and San Bernardino Counties visit our web site at [Caltrans8 info](http://Caltrans8.info).
